

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-5 (canceled)

Claim 6 (previously presented): A multiple socket tool comprising:

a body having a first end and a second end, the first end and second end having a hex-shaped interior, and a first and second end pin within the interior;

a first end smaller diameter hex-shaped socket within the first end, and the socket having a first end slot;

a spring biasing the smaller diameter hex-shaped socket to an extended position wherein the first end pin engages the first end slot;

a square aperture in a center section of the body;

a second end smaller diameter hex-shaped socket within the second end and the socket having a second end slot; and

a large spring biasing the second end smaller diameter hex-shaped socket to an extended position wherein the second end pin engages the second end slot.

Claim 7 (currently amended): The tool of claim ~~1~~6 wherein the sockets are sized for standard inch sizes.

Claim 8 (currently amended): The tool of claim ~~1~~6 wherein the sockets are sized for standard metric sizes.

Claims 9-10 (canceled)
